REPORT OF THE SECRETARY OF THE BOARD OF MANAGERS

April, 1916—April, 1917

The managers have decided to omit the Secretary's usual report as a war economy, all necessary information being contained in that of the General Superintendent of Nurses.

It also has seemed wise to omit the reports of the Auxiliary Committees at Harlem, Fordham and Gouverneur Hospitals; The Circular of Information; The General Scheme of Instruction; Hints to Candidates; The Reports of the Alumnae Association; The Registry; The By-Laws and the Contract with the City.

The above will be on file at the office of the Training School.

The report for 1917 will not be mailed as usual, but may be obtained at the office of the Training School.

Respectfully submitted,

DOROTHEA BLAGDEN,
Secretary.

REPORT OF THE GENERAL SUPERINTENDENT OF TRAINING SCHOOLS FOR NURSES

To the Board of Managers of the Bellevue Training School for Nurses.

I have the honor to submit to you the following report for the year 1916 of the Training School for Nurses attached to Bellevue and Allied Hospitals:

The year has been characterized by an increased daily average number of patients in the Hospital, which during the past three months has frequently approximated over 1,550 patients daily at Bellevue. We have admitted and cared for 66,098 patients during the year—two-thirds of the number at Bellevue and one-third at the out-lying hospitals; these hospitals all being taxed far beyond their standardized capacity.

The summer of 1916 was one of unusual activity, interest and anxiety although the hospital census was not at that time as high as during the previous summer.

The work was particularly exacting, owing to the severe epidemic of poliomyelitis, the difficulty in securing a large enough force of graduate nurses to meet the emergency and the continual moving of the hospital wards in order to open new departments and to complete the occupancy of the new pavilions.

The transfer of patients to I, K, L and M which began in the Fall of 1915 was not completed until the Spring of 1916.

The old building—condemned and temporarily vacated—has been almost entirely re-occupied, and when the proposed changes have been made in the Psychopathic Service and the Neurological Service opened, no vacant part will remain. The Tuberculosis and Prison Wards have been moved to the first floor; the Women's Erysipelas Ward to the second floor; the Women's Medical Ward has been moved twice and is now in temporary quarters, as Ward 40 is still occupied by the children convalescent from poliomyelitis.

The Ear, Nose and Throat Department was opened July 1st on the third floor of Pavilion I and K, and the Service has been active to the point of overcrowding; the Eye Service was opened on February 28th on the first floor of Pavilion I, and notwithstanding the difficulty we have experienced in obtaining complete equipment an active service is being built up.

Up to the present time it has been impossible to open the Neurological Service, as no provision was made for the salaries and lodging of the necessary personnel.

The Operating Room Service has been increased by the addition of an instrument nurse for each service and two graduate nurses for night duty. This relieves the day nurses from being called for emergency work and enables us to give more careful supervision and teaching to the pupils and allows the same number of hours for recreation to all nurses on duty in that Department as obtained on the other hospital services.

The Medical, Gynecological and Tuberculosis Services have been acutely overcrowded and as no allowance was made for us to appoint the additional number of nurses needed for what has been, many times, approximately double the number of patients that these wards were standardized to admit, the nurses have carried a heavy burden.

It has been necessary to make a very large number of appointments to the staff of graduate nurses during the year, but we have been seriously handicapped by the fact that the Nurses' Residence is too small to accommodate the number of nurses allowed in the budget (a very limited number when compared with the very large and increasing daily average number of patients in the hospital). Provision is made by the City for only a limited number of these nurses to live outside.

By new and changing rulings of the Bureau of Standards and Civil Service Commission requiring that each graduate nurse, before appointment, shall answer a very long and complicated questionnaire for filing in those departments—the work of the Training School office has been greatly increased. Not infrequently, we have become acquainted with these new rulings only when some of our most competent supervision has been omitted from the payroll. Much discouragement and many resignations have been the result, but the services of these nurses have been so valuable that in each instance they have been finally reinstated.

It is difficult to secure and retain the personnel necessary for the important work of ward supervision and where we find working under high pressure, graduate nurses who give intelligent conscientious and unselfish service that is being given by the Nursing Staff at Bellevue to the City's sick poor, it does not improve the esprit de corps of the school and hospital to drop them, without explanation, from the payroll.

Exclusive of the Midwifery, Ambulance and Social Service Departments, we are standardized to care for over fifteen hundred patients daily with 169 graduates and 189 pupil nurses. We

need, at least, double the number of pupils allowed, but we cannot admit larger classes until the City increases the size of our Nurses' Residence. Ninety-six nurses at the present time are lodged outside the Residence. This number will be considerably increased when the Neurological Service is opened, the Psychopathic Service enlarged and the overcrowded services properly staffed.

DIETARY DEPARTMENT

Although only limited improvement can be made in the Dietary Department until the new Central Pavilion is added to the hospital, new kitchen equipment has been ordered to relieve the Diet Kitchen of much bulkwork which is now being covered there because of the limited capacity of the general kitchen. When this equipment has been set up and all the light diets for the hospital are prepared in the general kitchen, it will give a better opportunity for teaching and the preparation of special diets for disease, and for the practical application in our wards of the results obtained by the scientific work of our exceptional Metabolism Department.

ADMINISTRATIVE CHANGES

In addition to the changes in the staff of head nurses at Bellevue, the following changes have been made in the Executive Staff of the Training School:

Miss Clara D. Noyes, General Superintendent of Training Schools resigned September 20, 1916, to accept the position of Director of the Bureau of Nursing of the American Red Cross, Washington, D. C. Her successor was unable to leave the work of Inspector of Nurse Training Schools in the New York State Education Department at Albany, to take up the work at Bellevue, until November 27, 1916.

Miss Annie Grass succeeded Miss Margaret O'Connor in the operating room.

Miss Mary Reading has been appointed to succeed Miss Frost as housekeeper. Miss Eva Hugo was transferred from the Nurses' Residence to the Training School office, Miss Elsie McDonald succeeding her in the Residence.

Miss Freda Carstens was appointed Night Supervisor for the main building and for pavilions I, K, L and M with Mary Steele to assist her.

No important administrative changes have been at Fordham, Harlem or Gouverneur Hospitals.

CONSTRUCTIVE CHANGES

HARLEM HOSPITAL: The new wing to the hospital has been completed, equipped and occupied and the old wing has been repainted and re-occupied throughout.

The Out-Patient Department has been enlarged by the addition of the rooms formerly used by the Accident Ward. The employees have been moved to their new dining room on the top floor of the hospital and the old room has been repainted and is now used by the Staff.

The houses on 136th street have been vacated and the employees moved to their new dormitories. Thirteen rooms in the Residence, formerly used by the employees have been taken over and every available room in the Residence is in use for nurses.

FORDHAM HOSPITAL: As reported last year, the Residence for Nurses is very much overcrowded, which is, no doubt, in part responsible for the high percentage of illness among the pupils.

By renting a small frame house, the living conditions have been slightly improved and better heating, class room and lavatory facilities provided. As this building is no larger than the previous annex, it does not relieve the overcrowding and the need for an addition to the Residence is of vital importance, not only to house the number of nurses now on duty, but for the additional number which is necessary to meet the need of the steadily increasing daily average number of patients in the hospital.

GOVERNEUR HOSPITAL: We are greatly handicapped by the lack of suitable accommodations for pupil nurses. The old houses on Monroe Street, now occupied, are difficult to supervise and impossible to keep habitable. Rooms fitted for two nurses are now being used for three. Both the heating and bathing facilities are entirely inadequate. When the new ward and dispensary are opened, we will need a larger number of nurses. No provision whatever has been made to house them.

PUPIL NURSE INSTRUCTION

No change has been made in the curriculum for the school during the past year. We hoped to include a series of lectures by Miss Anna Kerr on Public Health Nursing. This course will be given next year.

Since the last annual meeting, we have admitted 98 probationers in three groups—September, December and March. Of these, 69 remain in the school.

Our records show that 1,471 inquiries were received from applicants for entrance to the Training School; that 847 blanks

were sent out in response, and that 140 formally applied for entrance.

477 inquiries were received for post graduate courses.

337 applied for institutional positions.

202 young men applied for information concerning the School for Attendants.

A large number of candidates seek admission to the school. This is, no doubt, in part due to its exceptional theoretical and clinical facilities, but until an extension is built to the residence, we will be unable to admit the full number of eligible candidates that are applying for entrance. The class work is given by the members of the Supervisory Staff, one trained instructor, a graduate of Teachers' College, a paid corps of medical lecturers, a resident dietitian, and two senior students from Teachers' College who have given instruction in return for maintenance. One such scholarship has also been allowed at Harlem Hospital and has greatly aided and improved the quality of nurse instruction there. Classes in Italian and German have been regularly conducted.

At the request of a member of the Senior Class, permission has been given for the School to send an undergraduate delegate this year to the Annual Convention of the American Nurses' Association; The National League for Nursing Education and the National Organization for Public Health Nursing meeting conjointly in Philadelphia this week. Miss Cavanagh has been formally elected by the pupils of the school to serve; they will also meet the necessary expenses incurred by her on the trip.

The following prizes have been awarded for highest averages:

First—The Lavinia L. Dock prize to Miss Annie Monroe.

Second—In Memory of Mrs. Griffin to Miss Ruth Schmick.

Third—In Memory of Mrs. Griffin to Miss Lauretta Cavanagh.

Fourth—The Carrie J. Brink Prize for the best practical nursing work by the Alumnae Association of the Bellevue Training School for Nurses to Miss Annie Monroe.

Following the custom of previous graduating classes in leaving a gift for the use of the school, the present class has presented for its use a gift which will give much pleasure for a long time to come—a beautiful victrola.

POST GRADUATE INSTRUCTION

A large number of graduate nurses have made application for post graduate courses, but we are able to admit only a very limited number as we have had no room in which to lodge them.

AFFILIATIONS

The affiliations are distributed as follows:

	<i>Schools</i>	<i>Pupils</i>
Bellevue	13	38
Harlem	12	63
Fordham	9	43
Gouverneur	4	23
Total	38	167

Two affiliations have been dissolved: The Mary Immaculate Hospital Training School for Nurses of Jamaica, L. I., and the Lucy Brinkley Hospital Training School for Nurses, Memphis, Tenn.

SCHOOL FOR MEN ATTENDANTS

Heavy demands have been made upon the school during the past year, due in part to opening the new hospital pavilions; demands which have been faithfully and efficiently met by the students. We regret that we have been unable to increase the number of students to meet the increase in the hospital capacity for men patients. On Dec. 31, 1916, there were fifty pupils in the school; eighteen satisfactorily completed the course of two years; ten have taken an additional course in McLean Hospital, Waverley, Mass., in order to secure nurses' diplomas. Four have accepted positions; one in the operation room at Bellevue Hospital; one at West Point; one at Battle Creek Sanitarium, Michigan, and one in the First Aid Department of the Edison Electric Company of East Orange, New Jersey.

Four pupils left the school in July, 1916, at the call of the National Guard for duty on the Mexican Border; only one has returned.

One graduate of the school is employed on the Prison Ward and three on the Alcoholic Ward.

One pupil from Butler Hospital Training School for Nurses of Providence, Rhode Island, is taking a year's course in order to receive hospital training and qualify for nursing in Rhode Island.

The course of instruction covers a period of two years and includes practical work in the medical, surgical and urological wards of the hospital, as well as a definite period of practical and theoretical instruction in the operation room, cystoscopic room, surgical dressing rooms and dispensary.

The class work consists of recitations and lectures in:

JUNIOR YEAR

	<i>Lessons</i>
Anatomy and Physiology	10
Drugs and Solutions	10
Practical Nursing	10
General Surgery	10
Bacteriology	5

SENIOR YEAR

	<i>Lessons</i>
Bacteriology	5
Bandaging	6
Anatomy	10
Medical Nursing	10
Surgical Nursing	10
Urological Nursing	5
Materia Medica	10
Massage	10
Obstetrics	10
Dietetics	10
Nursing Care of the Nervous and Insane.	10

HEALTH OF THE NURSES

Eighty-eight pupils have received Typhoid Vaccine. There have been no cases of typhoid among the nurses.

We regret to report that it has been necessary for 357 nurses to report to the Infirmary for illness.

Appended are the important illnesses:

Bellevue.

Scarlet fever (to the Minturn Hospital)	4
Diphtheria (10 to Minturn Hospital; 2 isolated in Residence)	12
Measles (Isolated in Residence)	2
German measles (Isolated in Residence)	1
Bronchial pneumonia	1
Tuberculosis	1
Diabetes	1
Rheumatism	7
Operations:	
Major	1
Minor	6

Fracture of Patella	1
Fracture of Wrist	1

Harlem.

Diphtheria	5
Erythema Nodosum	1
Mumps	2
Measles (to Riverside Hospital)	3
Pneumonia	1
Rheumatism	4
Typhoid Fever	1
Operations:	
Major	2
Minor	2

Typhoid Vaccine given to 3 pupils.

Eighty-three nurses have been off duty ill during the year.

Fordham.

Diphtheria (to the Minturn Hospital)	1
Pneumonia	1
Rheumatism	3
Typhoid Fever	1
Pulmonary Tuberculosis	1
Pleurisy	2
Measles	1
Mumps	1
Chicken Pox	1

Sixty-five nurses have been off duty ill during the year.

Gouverneur.

Diphtheria (to the Minturn Hospital)	1
Typhoid Fever	1
Measles (1 to Willard Parker Hospital; 5 isolated in Home)	6

Twenty-eight nurses have been off duty ill during the year.

WARD FOR WELL BABIES

We have ready for occupancy on the roof of Pavilions L and M, a Ward for the well babies of mothers who are sick in the hospital. This ward will greatly relieve the overcrowding in the observation wards on the first floor of Pavilions A and B, and will provide a more suitable environment for these children; isolated from the sick children.

The Social Service Department will provide the salaries for the necessary nursing care in this ward; a responsibility which we hope will be taken over by the city when it acts upon the next budget.

SOCIAL SERVICE

Through the generosity of a friend, we have been provided with a very comfortable and commodious motor ambulance with which to gather and bring to the hospital for treatment children with the various deformities resulting from last year's epidemic of poliomyelitis.

Two additional nurses have been granted this year to cover work on Sundays, holidays and in the Admission and Discharge Department of the hospital. This has met a long-felt need in making it easier for the patients in their first contact with the hospital, and for the hospital in determining if our patients are returning to environments suitable to ensure complete convalescence.

The course of instruction given by Miss Wadley to our students is very valuable, and we are indebted not only in the nursing service, but throughout the entire hospital for the far-reaching influence of this department.

CENSUS OF THE SCHOOLS, DECEMBER 31, 1916.

Bellevue School:

Superintendent of Nursing	1
Assistant Superintendents	7
Superintendent, Nurses' Residence	1
Assistant in Nurses' Residence	1
Instructor, Probationers	1
Night Superintendents, Main Building and Pavilions A and B.	3
Night Superintendent, Nurses' Residence	1

Graduate Nurses:

Social Service Bureau:

Executive Secretary	1
Assistants	9

REPORT OF ANNUAL MEETING

The Annual Meeting of the Board of Managers of the Society of the Bellevue Training School was held on Friday, April 20, 1917, at 10:30 A. M., at 440 East Twenty-sixth Street.

The following officers were elected for the ensuing year:

President, MRS. WILLIAM CHURCH OSBORN
First Vice-President, MRS. ROBERT HUNTINGTON
Second Vice-President, MISS HARRIETTE ROGERS
Secretary, MRS. LINZEE BLAGDEN
Treasurer, MRS. ELLIOT BENEDICT

The President was authorized to renew the lease of Osborn Hall to the Alumnae Association from May 1, 1917, to May 1, 1918, for the nominal sum of one dollar.

Respectfully submitted,

DOROTHEA BLAGDEN,
Secretary.
